

### **Changes introduced in CDS release 4.5.0.5 (16<sup>th</sup> August 2024)**

<b>CDS Change</b>	<b>Movement Type</b>	<b>Declaration Completion Instructions</b>
Document Code A031	Imports	When declaring Document Code A031 in Data Element (DE) 2/3 a document ID must be declared, along with status code AC.  Failure to declare a document ID will cause the declaration to be rejected.
New Goods Location Codes (GLCs)	All	New goods location codes have been added to the CDS codelist.  Appendix 16 will be updated ASAP after this release has gone live when these codes are available for use.
Additional Procedure Codes (APCs) to be used with Additional Information (AI) Code MOVE2	Inventory Imports	When a trader declares AI Code MOVE2 in DE 2/2 at item level on a C21i Customs Clearance Request (CCR), then APC 71M must also be declared in DE 1/11.  Failure to declare APC 71M in DE 1/11 when AI Code MOVE2 is declared in DE 2/2 will cause the CCR to be rejected.

**PLEASE NOTE:** If any prelodged declarations or CCRs contain codes that have been updated by this release, those declarations or CCRs should be amended otherwise the declarations could be rejected upon goods arrival.

New codes can be found at the following links:

**Appendix 4 – Additional Information Statement Codes:** <https://www.gov.uk/guidance/additional-information-ai-statement-codes-for-data-element-22-of-the-customs-declaration-service-cds>

**Appendix 5 – Documents and Other Reference Codes:** <https://www.gov.uk/government/collections/data-element-23-documents-and-other-reference-codes-of-the-customs-declaration-service-cds>
